Paradox, do you even know what patch updates are anymore?. One of the best games I've played on pc and console, really love the story and the characters.. I really enjoyed this TD. Simple and fun game. It had everything I look for in a TD.

#### Pros

- Cute graphics
- Short sessions (story)
- Spot-on speed of gameplay
- Meaningful tower upgrades & variety
- Simple rules
- No bugs were found
- No buildfields. You can place towers everywhere
- Cheap game

#### Cons

- Short.
- Few types of towers.
- Need more bosses.

I put this game almost as high as these, I just wish it was a bit longer.. graphics are nice and the game runs really well little confusing at first but it's a nice survival game, rare type in vr games. A beautiful atmospheric game!

The sound is hypnotic and weaved in nicely to create the mysterious atmosphere. Expect tension and a decent amount of suspense but NOT HORROR. Aside from some crazy demonic creatures this isn't a horror game. This isn't Subnautica either.

The fact you hold a 'gun' aka 'tool' is pure self-preservation. If you're hoping for the above, sorry Charlie this game isn't for you. It's a linear storyline that takes you on an adventure with two other divers but then things go wrong as they do and you find yourself lost for a while, so it's an experience. The voice acting is well done and I personally got attached to the characters. It gets kinda emotional at the end when you find out that holy crap;) )

Anyway, an intriguing little indie game with a twist and a message at the end. I enjoyed it.. 8.5/10 My ears enjoyed it #First!

Cute little game, kinda fun. Reminds me of the game I had on Playstation except the graphics are a lot better.. Heroes Of Arca is a game genres of RPG And Turn-Based strategy.

The game is very beautiful and done wonderfully.

A touching, fairy tale story about the adventures of a young girl.

I really enjoy the turn-based battles and the different ways you can use your troops.

It takes a while to really get into as it's a fairly difficult game, but once you do, it's really something else. If you're craving tactical strategy with a hint of RPG, this is definitely your game.

This game is really quite charming - cute colorful graphics, nice animations - but also fairly challenging.

Just be forewarned. But still a fantastic game. Highly, highly recommended if you like tactical stuff.

. You're a square in abstract geometry minimal land, completing objectives, moving to awesome techno music, and going pew-pew. 10/10 would recommend.

Seriously though, Disastr\_Blastr is a great time and I've spent countless hours just working through the variety of levels that introduce new enemies and obstacles. Oh, it gets hella-hard at points, but I loved every second of it.

I think for the sheer amount of levels, powerups you obtain, and ability to play the levels how you want, this is more than worth the base price of \$4.99.

You can hear me gush more about the game over at <http://indiegamepodcast.com/episode-2-thanksgiving-disastr/>. [Hey everyone!](#)

[I had a lot of fun and well done to the developers for making a game that took me down memory lane to a simpler time!. I recommend you don't waste your time - this game is still broken.. Liveza is a game that has failed to learn from the mistakes of its predecessors while at the same time suffers from a lack of consistency between tone and design. Hardcore platformer fans may appreciate the goals the game set out to achieve however Liveza ultimately presents an unsatisfying experience.. Fantastic cheap rail shooter. Great bargain VR game and easy to pick up for people new to gaming and VR.. This is a fun and addicting game. I've been able to join one of the top guilds, which makes the game a lot better. Very good community and everybody seems to be very helpful. The forums are very active and informative and the devs are active and quick to get bugs fixed. Very much worth checking out. I love that I can switch from PC to mobile version as well.. Game has huge Potential but the Controls are clunky and kinda laggy especially in Multiplayer.](#)

[I love Cyberpunk and all that Style but it doesnt really looks that great but it can be really awesome game in the Future](#)
